

Bead Size Sheet

02.05

for choosing the right size of your geniaBeads[®].

How to use this sheet

After printing this sheet on your standard printer you can easily chose the size for the beads you want to request. The two scales will help to determine whether your software or printer are doing the correct job.

The **blue dots** do indicate geniaLab's standard sizes 0.5, 1.2, and 2.5 mm.
